

BHIMA

Tactical Logistics Drone

Delivering Precision. Enabling Possibility

BHIMA is a rugged, field-ready logistics drone engineered to deliver essential payloads with precision and speed — even in the harshest or most remote environments. From disaster relief and remote medical resupply to high-risk military logistics, BHIMA gets your mission-critical supplies where they're needed most.

Key Features

Tactical Strike

Two-Man
Operation

Long-Range
Surveillance

Auto-Target
Tracking

GPS-Denied
Operations

Multi-Mission
Capability

Efficient
Logistics

Auto-Return
Safety

Technical Specifications

3 kg
Max Payload

45 mins
Flight Time

15 km
Operational Range

Manual, Semi,
Autonomous, GPS-Denied
Navigation Modes

Battery,
Communication,
Mission Abort
Failsafe Systems

Medical Kits, Food
Packs, Relief
Supplies, Equipment
Payload Types

Applications

Medical Supply Drops

Disaster Response

Infrastructure &
Industrial Support

Border & Remote
Area Logistics

Mission-Ready Features

- **Field deployment:** Lightweight, durable frame
- **Rapid redeployment:** Quick battery swap
- **All-terrain operation:** Weather-resistant build
- **Versatile:** Modular payload bay
- **Battery Fail-safe:** Auto-return or land
- **Communication Fail-safe:** Switches to autonomous
- **Mission Abort System:** Real-time override

Setting Ourselves Apart

8+ Years of
Experience

250+ Projects
Completed

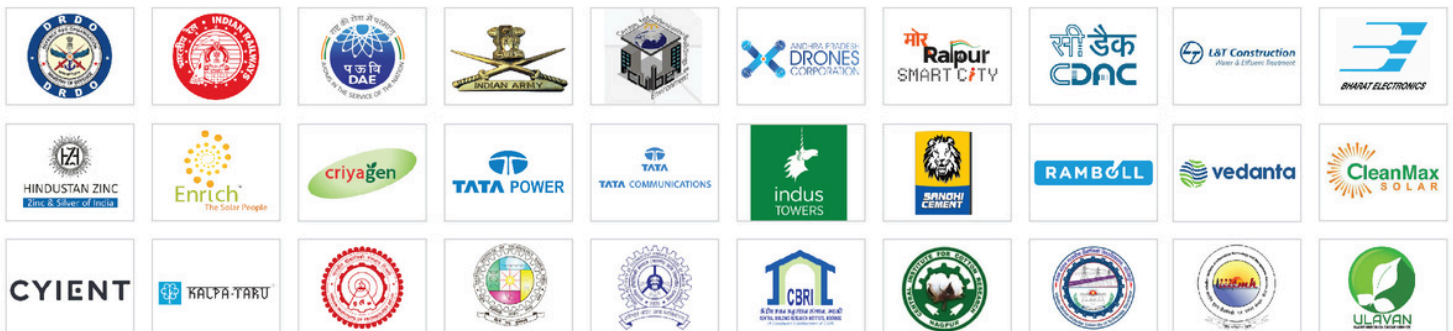

100+ Clients
Served

DGCA Approved
Drones

Clientele
